# 3 Fulfilling Courses

The 2020 reform of the University Entrance Exam will be the biggest change in the Japanese education system in many decades. On top of the knowledge that has been required this far, understanding of the global society and a good command of the English language including spoken communication will be demanded. Best prepared for this transition Seikei offers our students three different courses to choose from for the optimal development of each child's skills towards their individual future goals.

# Message

from the principal

Honda Tetsuro

As citizens of Fukushima, we can't slow down the revival of our hometown. It takes tremendous amounts of time and money, but more than that, it takes capable people who love Fukushima. We consider it our mission as a school, to provide Fukushima with this treasure.

Fukushima Seikei High School was founded in 1913. Ever since then, our motto has been "Peach and Plum attract without words", a line written by Sima Qian two-thousand years ago in China. It means that a person who excels in virtue, attracts many others. The last two letters Cheng Qi – Seikei, became our school's name and hopefully a future prediction for our students. Our school motto might seem difficult, but we read it this way; that our first priority is to help to shape splendid characters, our second, to give them a splendid education, and our third is to prepare them for the future's global society.

Advancing technology and Artificial Intelligence, and the so-called IoT are all indicators we are on our way to Society 5.0. At the same time, we are living in an age where predictions about our future become increasingly difficult.

What I can say for sure is, even without reference to examples from the past, 'man' is an existence that can with a strong and unrelenting will grow spectacularly. And Seikei is the environment that enables you to do so. We invite you to catch up to your dreams & spend your high school days with us.

### School Motto

## 桃李不言下自成蹊

This line stems from the Chronicles of China's Han dynasty, written around 94 BC by Chinese historian Sima Qian. It refers to two popular trees – the peach and the plum, whose blossoms are so beautiful and whose fruits so delicious that they make people visit them even from far away, building paths even through the rough mountain terrain. A virtuous person, in the same way, naturally attracts many others.

### Education Concept

Nurture the Heart, Grow in Wisdom.

### Educational Target

Faithfully to our motto equipping youth that can carry a whole generation on their shoulders.

1

Creating virtuous students who even after graduating will continue to educate themselves.

2

Working with the student's curiosity and understanding to develop abundant creativity.

3

Enhancing each student's ability to adopt & contribute to the future's global society.
